

Fivesquare

A new way to organise your favourite objects

Fivesquare

Fivesquare is a very slim wall-mounted rack of shelves that helps organise your objects in any room and neatly frames it all in five squares. Fivesquare is made in solid and sustainable materials, all parts are made from certified moso bamboo, one of the most sustainable natural resources the world has.

This organiser can easily be mounted where other shelving systems take up too much space, since the depth of the shelves is only 8,5 cm. This allows just enough space to arrange your favourite bottles of wine, perfume bottles, flowers or any other of your favourite objects.

Additionally, Fivesquare is a part of the “WE DO WOOD – MADE IN DENMARK” collection, which now includes Nomad Chair, Chest 1-2 and Fivesquare.

Designer Sebastian Jørgensen explains: *“The idea behind Fivesquare came from a number of request from people living in apartments with limited space. People were looking for a good solution for kitchens, bathrooms, hallways, staircases and other narrow spaces and that kick started the process. The depth allows just enough space for bottles and cans, and the height of each square varies in order to make room for both high and low objects”.*

Product specifications Fivesquare

Materials	Solid bamboo
Dimensions	W50 x D8,5 x H120 cm
Retail price incl. VAT	EUR 225,00
