

Loop Shelf Dark

Two new variants of Loop Shelf in dark bamboo

Loop Shelf Dark

We Do Wood launches two new dark bamboo variants of the popular Loop Shelf. The two new variants will be available with brass and black steel mounting brackets.

Loop Shelf is a highly flexible and modular shelving system. The shelves can be used individually or combined to create a complete shelving solution. The specially designed loop-shaped brackets are mounted directly onto the bamboo shelf, creating a light and exceptionally strong piece of furniture.

The furniture parts are made from certified moso bamboo, one of the most sustainable natural resources the world has. The brackets are available in brass or black steel, which can easily be recycled when the product has reached end of life.
